Passion for life

New
Renault MEGANE R.S.

Motorsports in its genes

New Renault MEGANE R.S. is an impressive car. A car built to arouse your driving instincts with wings extended by 60 cm, special bumpers featuring a Formula 1 blade at the front and a wide diffuser at the rear. Sitting squarely on its 19-inch black diamond alloy wheels, the front end features LED lights with the additional multi-reflector R.S. Vision system. It includes a central exhaust exit, side extractor vents and a wide lip spoiler with exclusive Orange Tonic bodywork colour, New Renault MEGANE R.S. is clearly designed for sporting performance.

A sport cockpit

As soon as you see the interior - carbon grey with touches of red - you want to get behind the wheel. New Renault MEGANE R.S. invites you to take to the road, with Alcantara leather bucket seats designed for support, a leather steering wheel and personalisable dashboard. At the same time, the aluminium pedal assembly take you into a new dimension, the world of R.S. sporting performance.

A passion for motorsports spanning 40 years

Leaders in motorsports for 40 years, our engineers trialled the solutions featured on New Renault MEGANE R.S on the track. Building on the infinite legacy of an exceptional championship, through efficiency, braking quality, reinforced roadholding and powertrain reliability, steering wheel paddles and launch control!

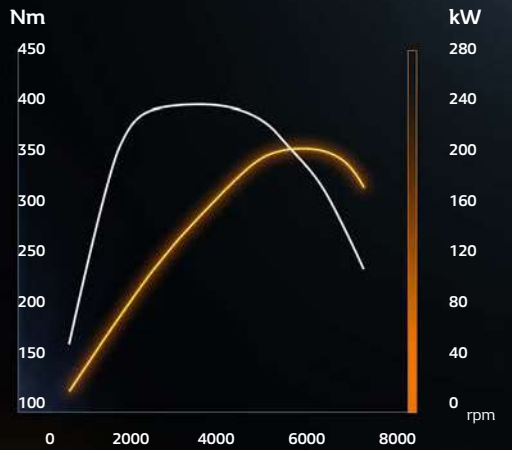

Nico Hülkenberg,
Pilot Renault Sport Formula One™ Team

1.

Power: 280hp/205kw at 6,000rpm/min

Max. torque: 390Nm at 2,400rpm

4-cylinder engine

1.8 litre (1,798cm³)

Efficiency and performance

New Renault MEGANE R.S. benefits from the know-how of Renault Sport in adapting motorsports technologies to production sports vehicles. It features in-car equipment on a par with the best in class and a range of driving aids for any type of road and any situation.

Suspension with hydraulic compression stops: With the addition of hydraulic compression stops, the shock absorbers absorb impact better. This technology delivers spectacular results in terms of progressive control, comfort and performance.

Sporty and reliable

With its many driving aids, New Renault MEGANE R.S. allies sporting performance with safety. It also features parking sensors, overspeed warning, emergency braking assistance and hands free parking with reverse camera. An impressive pedigree!

1. R.S. Vision: groups the side lights, long-range headlights, fog lights and cornering lights, as part of a high-performance lighting package.

2. Blind spot warning: uses sensors on either side of the front and rear bumpers to warn you of a vehicle entering its range.

Race mode, aim for pole position

Use R.S. Drive to select your driving mode (Normal, Sport and Race) and adapt the gearbox mapping, ESP behaviour, steering and sensitivity of the accelerator pedal. Play with the paddles to change gears at ultra-fast speed. Enjoy the excitement of a Grand Prix start with Launch Control: left foot on the brake, right foot on the accelerator. Just release the brake pedal for a breathtaking rush of adrenalin.

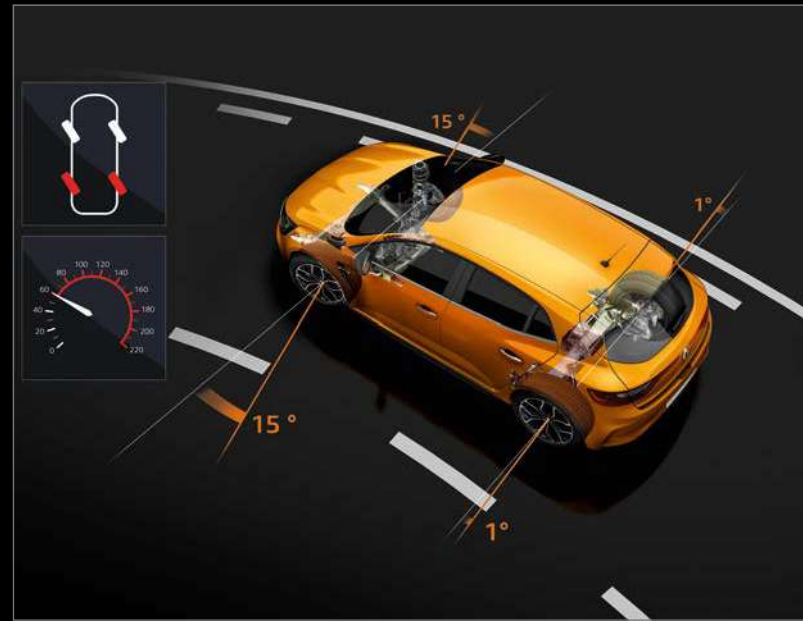

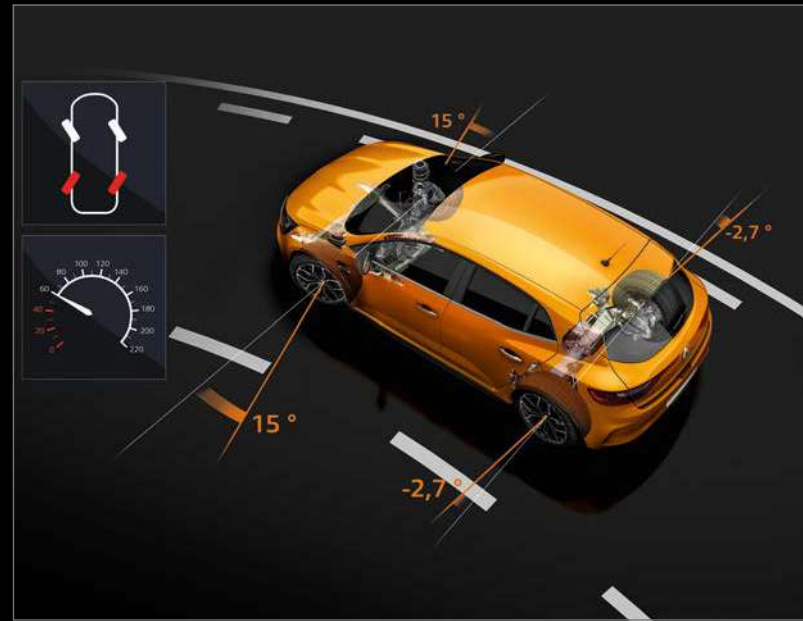

Launch control

Agility and Stability

4CONTROL 4WD technology contributes to incisive steering and optimised roadholding for a precise, surefooted drive. At low speeds, the system turns the rear wheels in the opposite direction to the front wheels. At speeds of over 60 kph (100 km/h in Race mode), all four wheels turn in the same direction. You are in control of the road.

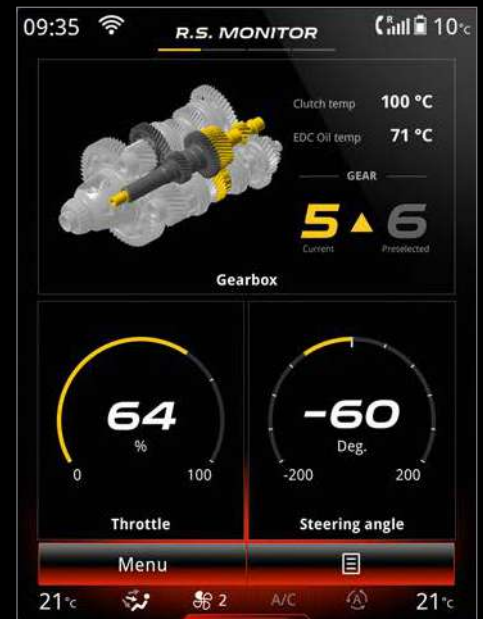

Display, analyse and share your performance

Your driving talents deserve to be recognised, stored and analysed! The onboard R.S. Monitor stores your driving settings in real time on the R-LINK2 screen.

CARLAB Free Wheel

ENGINE

Type of engine (injection/turbo)	4 cylinders with direct turbo injection
Capacity (cm ³)	1,798
Bore x stroke (mm)	79.7 x 90.1
Number of valves	16
Max. power kW EEC (hp) at engine speed of (rpm)	205kW (280hp) at 6000rpm
Max. torque Nm EEC (m.kg) with revs of (rpm)	390Nm from 2400rpm to 4800rpm
Distribution type	By chain
Stop & Start and energy recovery from braking	Yes

GEARBOX

Gearbox type	Dual-clutch EDC automatic gearbox
Number of gears	6

PERFORMANCE

Aerodynamics CdA (m ²)	0.78
Top speed (km/h)	250
400 m stopping distance (s)	14
1,000m stopping distance (s)	25
0-100 km/h (s)	5.8

CONSUMPTION AND EMISSIONS

Extra-urban cycle (l/100 km)	6.1
Combined cycle (l/100 km)	7
Urban cycle (l/100 km)	8.5
CO ₂ combined cycle (g/km)	158
Fuel tank capacity (L)	50

CHASSIS – STEERING AND AXLES

Electric power steering	Yes
R-EPS mechanical steering system and electrically assisted steering rack	Yes
Turning circle, kerb to kerb (m at 5 km/h)	10.3

BRAKING

Front: ventilated disc Ø (mm)	355
Rear: solid disc Ø (mm)	290
Emergency brake assist	Yes
Electronic stability control - ESC	Yes

WHEELS AND TYRES

Wheels	19"
Standard tyre size	245/35 R19
Drive wheels	4

WEIGHT (KG)

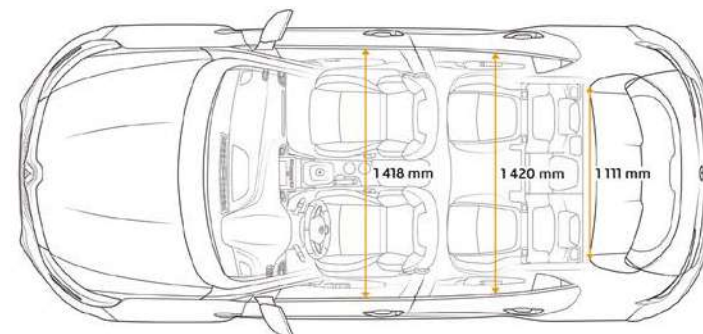

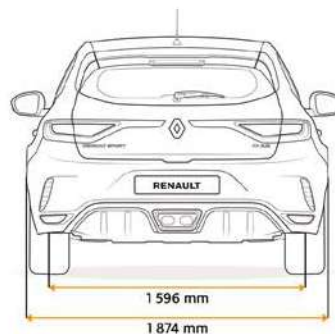

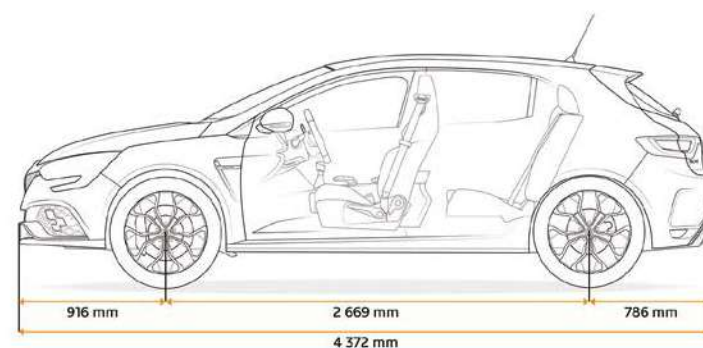

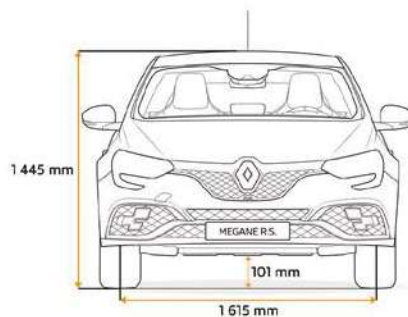

Unladen kerb weight (MIN)	1,430
Gross vehicle weight (GVW)	1,930
Gross train weight (GTW)	1,930
Max. weight on roof (kg)	80

CARLAB Wheel Rims

19" Interlagos black diamond alloy wheels
