A BEAUTIFUL WEAPON.

Provocative design meets race-proven technology, making the Corvette Stingray low, light and lean. Every single gram had to fight hard to earn its place on this stunning piece of automotive engineering. Impressive downforce keeps the vehicle planted whilst advanced ventilation systems reduce drag and help air flow to cool critical components.

A REAL QUICK-THINKER.

It's already the quickest, most capable standard Corvette ever made. But Stingray has also evolved to keep you connected and entertained. The Chevrolet MyLink™ system is comprised of a retractable 8-inch diagonal color touchscreen, a premium BOSE® audio system, 3D GPS navigation and Bluetooth® technology.
