

GTS

McLaren

At McLaren, we define the possible. Driven by our passion for breaking the rules. And pursuing perfection – in every last detail. It's the ethos that shapes everything we do. And makes the McLaren GTS one of a kind.

Here is a supercar with an extra dimension – effortless usability. Delivering a balance of thrilling thoroughbred performance, handling and responsiveness. With long-distance refinement, versatility and advanced functionality, alongside sublime driving dynamics you can use every day. GTS is the supercar unleashed.

So reset your expectations. The world's greatest roads are waiting.

M C L A R E N **G T S**

PERFORMANCE. ENGAGEMENT.

The design and engineering that shapes the GTS is unmistakably McLaren, but with a clear focus on driver engagement.

Its beating heart is a potent mid-mounted 4.0 Litre Twin-Turbocharged V8 Engine – with incredible power and torque delivering a best-in-class power-to-weight ratio. And making its supercar performance effortlessly accessible.

Re-sculpted front air intakes and rear fender air intakes maximise cooling while adding visual impact. New 10-Spoke Turbine Alloy Wheels are machined and polished to a perfect finish before painting. The vehicle lift system now takes just four seconds to raise and lower. So true to the spirit of GTS, you can take on any road you choose.

The GTS is built around innovation. Its chassis is the pioneering lightweight, ultra-stiff MonoCell II-T. A highly advanced version of our legendary carbon fibre design, perfected for everyday usability.

It makes the GTS structure hundreds of kilograms lighter than a traditional chassis, and allows us to mid-mount the newly optimised 4.0 Litre Twin-Turbocharged V8 Engine for class-leading acceleration and dynamics.

The upper structure is simply unique. Behind the B-pillars there's a carbon fibre clamshell design that creates space for a generously large rear luggage bay. And because of the exceptional strength of the carbon fibre, the C-pillars can be glazed without losing structural integrity, revealing a near 360-degree view.

Radical and innovative, MonoCell II-T allows us to reduce suspension spring rates and transform ride quality. Without compromising dynamic prowess at all. Here is comfort and supreme cabin refinement in a full-blooded supercar.

E N G A G E M E N T

S U P E R C A R

The GTS delivers supercar performance, sublime handling and pin-sharp responses. With refinement and real-world comfort. It means that a deep well of power, responsiveness and poise is yours to enjoy on short drives and epic journeys alike.

Proactive Damping Control suspension delivers this thrilling blend. Lightweight aluminium double wishbones and uprights work with Continuously Variable, Electronically Controlled Dual-Valve Dampers, allowing individual compression and rebound on each wheel. Longer dampers and a unique anti-roll bar create a ride/handling balance that is unmistakably GTS.

Combine this innovative suspension with the super-stiff MonoCell II-T and you have a platform that's free from compromise. Unmatched agility and supreme ride comfort in harmony.

The image shows the interior of a McLaren GT, featuring two brown leather seats with a quilted pattern on the backrests. A large panoramic sunroof is visible at the top, and the dashboard and center console are partially visible on the right. The text is overlaid on the left side of the image.

THE GT'S INTERIOR
SURROUNDS YOU
WITH DRIVER-
FOCUSED CABIN
ARCHITECTURE
AND TECHNOLOGY.

Here you'll find the first application of the McLaren Infotainment System II, with more processing power for an intuitive, seamless experience. The huge windscreen, sweeping glazed tailgate and C-pillars bathe everything in natural light. At night, innovative hidden-until-lit ambient lighting casts a soft glow everywhere.

A brilliant 1,200w Bowers & Wilkins Audio System puts you at the heart of every performance. It has 12 speakers, including additional bass, mid-range and tweeters.

We've worked relentlessly to achieve a perfectly balanced ambience, using advanced Noise, Vibration and Harshness (NVH) cancelling materials to minimise road, tyre and wind noise while fine-tuning what you hear from the engine bay.

This is an advanced interior equipped to enhance every day. In every sense.

E V E R Y T H I N G F O R

It's our design philosophy, and it defines the aggressive, purposeful proportions of the GTS. Longer than any other series production McLaren at 4.7m, the sculpted overhangs aid airflow. Revised air intakes both front and rear create a new visual signature, but also increase cooling efficiency. Shaped by aerodynamics, the GTS can generate 100 kg of downforce for ultimate stability and driver confidence.

Iconic McLaren features proudly hint at the DNA that runs throughout, from the classic mid-engined proportions to the dramatic Dihedral Doors. Full LED Headlights with Static Adaptive Functionality remove the need for heavy mechanical motors by varying beam intensity according to steering angle. The ingenious Electrochromic Panoramic Roof provides shade at the touch of a button.

Every form and curve in the GTS's design is alive with McLaren innovation and impact. Dynamic prowess and aesthetic beauty. Sophistication and controlled aggression.

McLAREN TO THE CORE

NOW DELIVERING
635PS AND 630NM
OF TORQUE

The GTS's ferocious 4.0 Litre Twin-Turbocharged V8 gives a spine-tingling 635PS at 7,500rpm. Delivered with accessible smoothness and efficiency.

Our engineers delved deep into the heart of the M840TE combustion system to create more aggressive phasing for more power. Ignition timing is now extra efficient and produces higher combustion pressure and more crankshaft torque.

This torrent of power is yours to fine-tune, thanks to the Active Dynamics Panel. Select Comfort Mode and there's a 'Quiet Start' function for discreet getaways and a softer exhaust note for high speed cruising. Switch to Sport or Track Mode, and driver focus sharpens in a split second. With a stirring exhaust note to match.

M A T E R I A L G A I N S

Everything you use and touch in the GTS is beautifully made. Tactile and functional.

The GTS brings you a choice of Nappa leather, Softgrain Aniline leather and sporty Alcantara®. You'll also find exquisitely crafted touches, like the new stitching pattern on optional TechLux trims, alongside next-generation materials such as SuperFabric® – an ultra-durable textile that lines and protects the luggage bay.

And the closer you look, the more you'll discover. Optional streamlined, electrically adjusted heated seats are unique to the GTS, and have been engineered for long-distance comfort. They provide exactly the right amount of padding and support, combined with excellent lateral control.

TECHNICAL INNOVATION

Like every element of the GTS the interior is shaped by innovation. And our latest interior trim options help you perfect your cockpit design. Meticulously created by the McLaren design team, each specification brings a mix of the very latest automotive materials. Each designed to balance quality, style and function. For any journey and every day.

PERFORMANCE

These two packs are sporty, minimal and refined, with a strong technical aesthetic focus. Colours are stealth black or deep red, with contrasting colour accents.

TECHLUX

A new apex in modern McLaren design, with classically elegant flourishes, the four TechLux interiors feature exquisite colour themes, from richly dark to vibrant light.

Precision. It's in our DNA. It flows through every aspect of our cars. And every part of the McLaren Technology Centre (MTC) in Woking, England – the home of our legendary Formula 1™ racing team.

Next door in the McLaren Production Centre (MPC), each GTS is hand assembled – in a tranquil environment where creativity and excellence thrive. These qualities are shared by all our engineers, designers and production teams. And they run through every detail of each car we make.

P E A C E O F M I N D

To reinforce our commitment to enduring quality and confidence-inspiring ownership, GTS is backed by a comprehensive 3 Year Unlimited Mileage Vehicle Warranty. It includes:

- 10 YEAR ANTI-PERFORATION WARRANTY
- 5 YEAR COSMETIC CORROSION WARRANTY
- 3 YEARS' ROADSIDE ASSISTANCE COVER
- 3 YEAR UNLIMITED MILEAGE VEHICLE WARRANTY
- 3 YEAR PAINT WARRANTY
- 3 YEARS' INCLUSIVE SERVICING

This is the kind of assurance that allows you to drive your GTS without restraint. Safe in the knowledge that it's comprehensively covered by the people who created it.

MAINTAINING PERFECTION

To keep your GTS performing at its best, it needs to be serviced at a McLaren Retailer every 15,000 km (9,000 miles), or after 12 months if that arrives sooner.

Our expert Retailer technicians apply the same meticulous standards when maintaining your GTS as those that first shaped it, here at the McLaren Production Centre (MPC). So you can relax, knowing your GTS is in the best possible hands.

EXPERIENCE MORE WITH YOUR CAR.

The experience of owning a McLaren is different... it's about more than owning a thrilling, individual car.

It opens up the chance to meet with our team and other McLaren owners. To be part of a club of like-minded enthusiasts. And to get even more from your McLaren than you thought possible.

That's because we offer driving and lifestyle events right across the globe... from the challenging to the exhilarating.

Hone your skills with professional coaching on the world's most iconic racing circuits. Get some thrilling slide time driving on ice. Or choose the more leisurely approach on one of our scenic driving tours. And, of course, you'll be able to experience VIP hospitality at selected world-class motorsport events.

Sound inspiring?
